Subject: Quote out of context

Jessica,

The quote you used today from Coach Davie was taken completely out of context from the subject, which was moving last week's game to the practice fields if the lighting issue persisted.

You made it seem like he was complaining about the crowd, and that's not even remotely what was said. I know that Daniel Libit pulled this exact quote on a Twitter, and while I expect that from him, I certainly expect better out of both you and the Journal when it comes to printing something like this. I do feel that something like this is hurtful to Coach Davie's reputation. He never complains about the fans and taking this pull quote out of context is very poor.

I have to ask...did you listen to this directly or did you just take it from Daniel's tweet, which also took this quote out of context?

Frank
